

Braille Christmas Cards By Kim Christiansen

Blind Children's Fund offers Holiday Cards in Braille that were created for us by artist Kim Christiansen. A box of 8 cards and envelopes is \$10.00 plus shipping and handling. The boxes come mixed or with a single pattern of your choice.

The Braille Christmas Tree is a wonderful card to send to a special friend or loved one, with the simple inscription "String of Dots are shining lights of red and yellow, orange and blue; all light up to say May Peace Be Unto You." printed inside. This card will warm your holiday season.

The saying for this card is, "The berries on this wreath are more than they may seem; for they are really dots of Braille with a most important theme. Peace on Earth is the message hung upon the door, touch it with your finger and feel some peace some more".

Shalom Holiday Card— Shalom printed in Braille on the outside, the inside of this card is blank so that you may personalize your own message.

The back of each card includes a brief history of the Braille system, a Braille alphabet chart, and an explanation of the Braille cells.
