**Braille ABC Blocks:** These cubes look like classic alphabet blocks with one colorful difference: One face of each has an impressed letter and corresponding Braille cell in the lower right-hand corner. Just right for kids with visual disabilities. Activity Idea: Play a "find the letter I say" game. Put out three blocks. Ask your child to pick one with the letter or sound you name. **27 blocks - \$29.00**

**Braille Math Blocks:** A great companion to the Braille ABC blocks. This math Braille set features 16 blocks of the classic ABC blocks embossed on two sides each with numbers and math symbols. Based on the Nemeth code, the set features more than two sets of numbers (1-9) and symbols plus, minus and equals. **\$19.00**

**Groovie Blocks:** Groovie Blocks are not complicated, they're just blocks, after all. They are, however, full of potential for helping children master basic math concepts. Children will "understand" the Groovie Blocks immediately. They will stack them, knock them down, interlock them, make patterns and shapes, and touch the shapes with their fingers. With so many possibilities, our Groovie Blocks will continue to challenge your child for many years to come, from preschool to elementary school. They may even intrigue the adult "children" of the family. **\$30.00**

**Dr. Drew's Discovery Blocks:** A Favorite of Ours, Dr. Drew's Blocks are made of the finest New England hardwood: kiln dried American Beech. Blocks are all one size (3" x 2" x 1/2"). They are perfectly balanced and can be stacked flat or end-to-end. **SO MUCH EASIER** for visually impaired children to use when first learning to stack blocks. They fit their hands nicely and are also great fun to clap together. They won the **BEST TOY of the YEAR AWARD** from the Parents Choice Foundation. **72 Blocks in a Red Canvas Bag \$50.00**  
**108 Blocks in a Wooden Tray \$75.00**

**Wet N' Set™ Nuudles™**
