### Celebration of Color *By Keri Mann*

This videotape features the movement of abstract shapes in blue, red, yellow, orange, green, and purple set to upbeat and celebratory classical music. The video was created for age's six months and up, as this is the point at which infants begin to respond to color.

### The Miracle of Mozart *By Keri Mann*

"Miracle of Mozart" is the third tape in a series of three. It teaches children numbers and shapes with state of the art graphics while carefully chosen classical selections of Mozart play in the background aiding your child in learning each number and each shape. Each musical piece was chosen because of its proven ability to stimulate the brain thus accelerating the learning process. Your child will love the creative ways each segment entertains and teaches. And, "Miracle of Mozart" is a wonderful way to introduce your child to classical music.
